

TECHNICAL SHEET
VOACANGA - *Voacanga africana*

Product code	IE.3203
Issue date:	3/5/2024
Modified:	21/10/2026
Version:	2

General characteristics

Sorted, cleaned and dried seeds of *Voacanga africana*, supplied as an industrial raw material for alkaloid extraction.

Origin: Ivory Coast

Packaging format: various formats available.

Composition of seeds:

- Loss on drying: <12%

- tabersonine >1,5%

- Foreign matter < 1%

Shipping and delivery: to be agreed with the customer, depending on the destination.

Intended use

Seeds used as raw material for alkaloid extraction (tabersonine) by pharmaceutical and nutraceutical manufacturers

Microbiological characteristics

Total aerobic microbial count (TAMC): $\leq 1 \times 10^7$ cfu/g (Ph. Eur. 2.6.12)

Total yeasts and moulds count (TYMC): $\leq 1 \times 10^5$ cfu/g (Ph. Eur. 2.6.12)

Escherichia coli: $\leq 1 \times 10^3$ cfu/g (Ph. Eur. 2.6.31)

Salmonella spp.: absent in 25 g (Ph. Eur. 2.6.31)

Limits based on Ph. Eur. 5.1.8 (herbal drugs).

Non-GMO; BSE/TSE-free.

Not intended for direct human consumption; for industrial extraction use only.

Storage conditions

Shelf life: 48 months in original sealed packaging

Storage: store in a cool, dry place away from light.
